

INTEGRATED QUALITY, ENVIRONMENT AND SAFETY POLICY

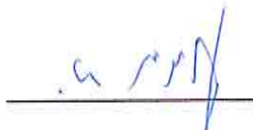

"Dolav" management undertakes to abide by a quality policy based on the following principles:

- ✓ Management of an integrated quality system according to the requirements of the standards, ISO9001:2015, OHSAS18001:2007, ISO14001:2015.
- ✓ Compliance with legal (and other) requirements applicable to the safety of the workers, the subcontractors and the visitors at the organization.
- ✓ Compliance with legal (and other) requirements for protecting the environment and the quality of the products and the services provided to the Company's customers in all areas of its activity.
- ✓ To provide high quality products and services to the customers in full alignment with their requirements and to their satisfaction.
- ✓ Commitment to preventing environmental pollution and continuous prevention and reduction of the risks and hazards to the natural resources, to the environment and to the community.
- ✓ Reducing the occupational risks, emerging from risk surveys, to an "acceptable" risk level, as defined by the management.
- ✓ Implementing activity for the elimination of any safety and/or environmental hazards originating in the Company's activity and in its facilities.
- ✓ Commitment to preventing occupational injuries and diseases and continuous improvement of the occupational safety and health management system.
- ✓ Streamlined and effective implementation of the processes on a professional level, while striving for excellence and continuous improvement.
- ✓ Continuous control of the product quality and the service quality.
- ✓ Leading management reviews and setting annual targets for improving, adapting and streamlining the integrated quality system.
- ✓ Assuring availability of the necessary resources for management and control of the quality system and training the human resource.
